Pilotis

Seriöses sitzen: Fehlanzeige. Pilotis möchte bewohnt werden. Das ist der Grund für die tiefen Sitz- und Liegeelemente – schräg oder gerade – die mehr als offen für eine spielerische Verbindung mit Tischen und Regalen sind. Aber auch die neue zierliche Variante für kleine Appartements und kleine Räume kommt groß heraus. Die Füße gibt es übrigens in Schwarzchrom, Chrom glänzend oder lackiert.

Sitting in state: not here. Pilotis wants to be lived in. This is the reason for the deep seat and reclining elements – sloping or straight – which are more than open to a playful combination with tables and shelves. But the new petite variant for small apartments and small rooms also makes a big impact. Incidentally, the feet are available in black chrome, glossy chrome or in a lacquered finish.
