OFML IN PRACTICE - PCON TOOLS

WE ARE VERY PLEASED THAT YOU ARE INTERESTED IN WORKING WITH OUR PCON DATA!

TO BEGIN WITH, WE WOULD LIKE TO GIVE YOU A SHORT INSIGHT INTO THE PCON WORLD.

WHAT IS PCON - SUMMARY

The name pCon stands for product configuration. With pCon, you can configure our products yourself and integrate high-quality 3D models of our range into your planning. All products and item logics are integrated and regularly updated. Products, prices and configurations. pCon can be used on a wide range of devices, from tablets to smartphones or the classic laptop/PC, and is easy to use, especially for beginners.

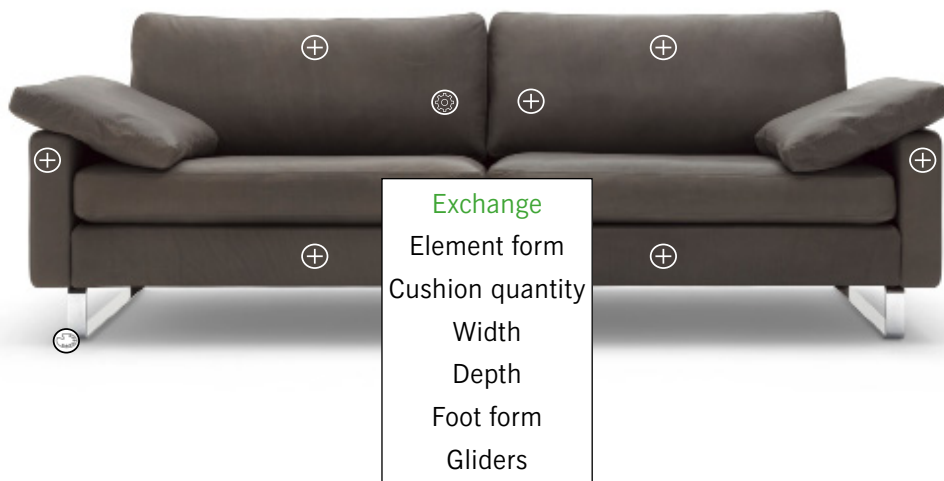

ADVANTAGES OF PCON

3D CONFIGURATION INCLUDING PRODUCT INFORMATION

Our furniture offers a wide range of possibilities. pCon makes it easier for you to get an overview and provides you with all the product's information interactively in one place.

IMPORTANT!

All price information are net prices excl. the respective value added tax of the country.

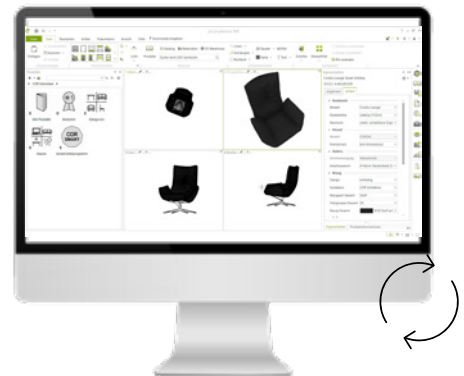

SALES INFORMATION

pCon is your direct access to a wide range of product images selection of product images, videos, sales arguments and much more sales information. These are regularly updated by us as the manufacturer. An added value in your sales talks and presentations.

ALWAYS UP TO DATE

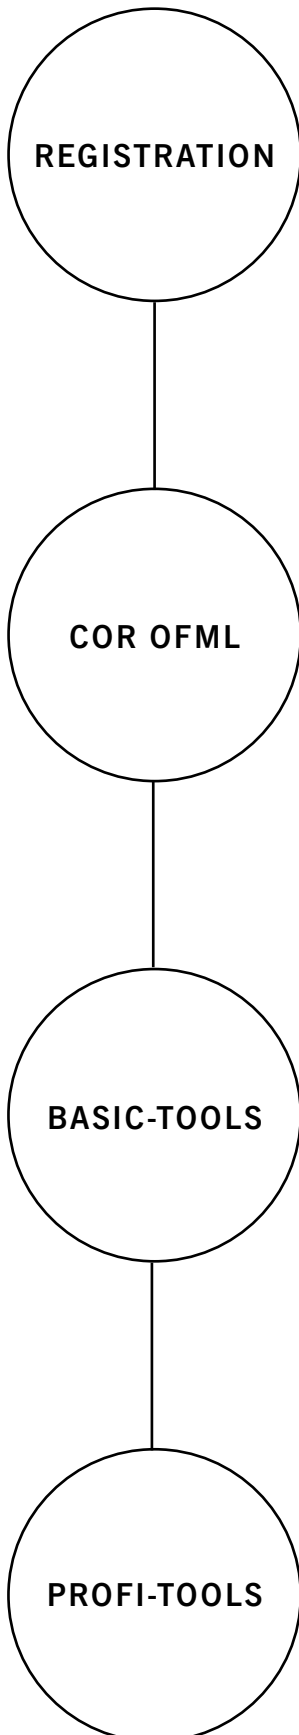

With pCon you always stay up to date. You receive automatic notifications of regular updates, so you are always informed about the latest materials, surfaces and prices.

IMPORTANT!

The applications pCon.box + pCon.facts + pCon.basket work cloud-based. Product updates are carried out in the background and are thus automatically available to you. Updates for the pCon.planner programme must be carried out manually by you using the pCon.update Data Client software.

PROCESS - WORKING WITH COR OFML DATA

Free registration with a pCon account.

Cross-vendor at www.pCon-login.de

Please note: The first employee to register for an organisation is automatically an administrator. He or she can give further users administrative rights. A short video on the registration process can be found [here!](#)

Subscribe to COR OFML catalogue
